THE ORIGIN

THE FIRST CRUSHER IN KERALA WAS OURS

Krishna Engineering Works is built on the foundation of the family that pioneered stone crushing engineering in Kerala. The first stone crushing unit in the state was designed and built by our founders — and over five decades, the craft they originated spread across Kerala through the engineers and technicians they trained.

We carry that legacy forward as a focused, modern engineering works — building new plants, maintaining running lines, and rebuilding the parts that wear, for the operators who cannot afford to stop.

MUCH OF THE CRUSHING INDUSTRY IN THIS STATE TRACES ITS KNOWLEDGE BACK TO ONE WORKSHOP.

HERITAGE

The family that started crushing engineering in Kerala. The name is still known across the state, north to south — and it still carries the market.

ESTABLISHED & COMPLIANT

A registered, GST-filing engineering works based in Ernakulam — full workshop, machinery and staff. Experience of a lineage, stability of an established business.

THREE WAYS WE KEEP YOU CRUSHING

From a brand-new plant to a single worn shaft — one specialist team for the whole life of your crushing line.

NEW PROJECTS

Complete crushing plants, designed and built around the material you crush and the output you need — from layout and fabrication to installation and commissioning.

INSTALL & COMMISSION

MAINTENANCE

Planned maintenance built around your wear cycles, plus fast breakdown response across three states — so a stopped line becomes a running one again in hours, not days.

PARTS REPAIR

Re-machine, rebuild or replace the components that fail first — turned to spec against the most abrasive materials. Repair a worn part instead of waiting weeks for a new one.

PREMIUM, BECAUSE WE STARTED THIS TRADE

01

ORIGIN PEDIGREE

Not a general fabrication shop — the family that built the first crusher in Kerala. That standard is in every shaft we turn.

02

ONE CRAFT, COMPLETELY

Crushing, screening and material-handling equipment is all we do. The harder your material, the more that focus matters.

03

LOCAL & FAST

Based in Ernakulam, serving Kerala, Tamil Nadu and Karnataka. When your line is down, we move.

04

UPTIME IS OUR NAME

For fifty years our reputation has depended on your line staying up. Documented work, checked to tolerance, handed over right.
